Aryan Srivastava

9653095749 | aryansrivastavaiit2024@email.com | Noida,Uttar-Pradesh

SUMMARY

ECE undergraduate focused on **VLSI** and **Embedded Systems** with hands-on experience in **Verilog-based digital design** and **ESP32 embedded projects**. Co-author of a VLSI research paper on **Power Optimization**, which is selected in the **ICESTI-2025 International Conference**.

EDUCATION

JSS Academy of Technical Education Aug. 2024 – Present
Bachelor of Technology in Electronics and Communication Engineering

Harmilap Mission School Apr. 2019 – Mar. 2023
Intermediate (85.8%)
High School (96.2%)

SKILLS

Languages: Python, Embedded C, Verilog, HTML, CSS, JavaScript (React.js)
Tools: VS Code, Cadence Virtuoso, Vivado, Linux, GitHub, EasyEDA, TinkerCad

EXPERIENCE

Codec Technologies Jan. 2026 – Feb. 2026
Digital & VLSI Intern Remote

- Gained exposure to the **VLSI design flow** from RTL to chip fabrication.
- Worked with **Verilog HDL** and understood workflows including **RTL, synthesis, and implementation**.

VMAD Technologies Jan. 2025 – Feb. 2025
Web Developer Intern Remote

- Developed responsive webpages using **HTML, CSS, and JavaScript**.
- Improved webpage UI and deployed projects using **GitHub**.

PROJECTS

Smart Intrusion Detection and Alert System

- Built an **ESP32-based laser intrusion system** to replace electrical fences and improve farm safety.
- Integrated **ESP32-CAM** with **Telegram alerts** to capture and send intrusion images to farmers.

ESP32-Based WiFi Anti-Jamming Detection System

- Developed an **ESP32-based system** to detect wireless threats like jamming and deauthentication attacks.
- Monitored abnormal RSSI patterns and rogue access points for **real-time detection and alerts**.

COMPETITIONS & RESEARCH

World Robotics Championship (WRC) 2025 - RC Car Racing

- Developed an **ESP32-based RC racing car** for the international robotics competition.
- Secured **11th global rank** while handling hardware design and embedded programming.

Smart India Hackathon (SIH) – 2025

- Built a **Smart Farm Intrusion Detection System** using ESP32 and laser sensors.
- Selected among the **Top 7 teams across India** for the proposed solution.

IEEE Research Paper - Co Author

- Co-authored paper: **The Sustainable VLSI Paradigm: Power, Performance and Embodied Carbon.**
- Researched techniques for **power optimization and efficient processor design**, scheduled for IEEE publication in 2026.
